

## On-Premise PBX

vs.

## Telesystem Hosted VoIP

Businesses of all sizes need to be available for their customers – effortlessly and professionally. On-premise PBX systems offer some of that capability, but at a price that makes it exclusive to have and expensive to maintain.

Telesystem's Hosted VoIP solution has refined that technology, making it headache-free and affordable for home offices and 1,000 employee enterprises alike.

Trying to decide on the solution that is right for your business? We've listed some points to consider...

### Cost

#### Budgeting must forecast for:

#### Budgeting is easy with all-in-one costs which include:

### Calling Plan

Choose from two plans to fit your business needs.

Unlimited Local & Unlimited Long Distance\*

+ Both plans include FREE calling anywhere in the world within Telesystem's Hosted VoIP network.

### Features

On-Premise features are limited by current hardware. You may need to buy additional hardware and/or licensing to add additional features.

Adding features may also require the assistance of a vendor who may charge additional fees outside of the original service contract.

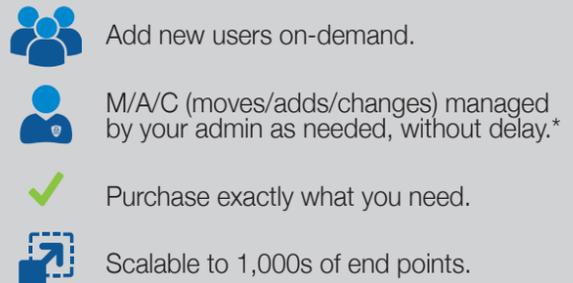

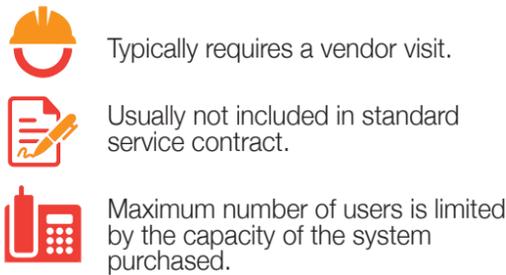

Tailor your solution on a line-by-line basis so you aren't locked into paying for features you don't need.

Our feature rich Complete Plan gives you access to over 70 productivity tools like:

- ✓ Simultaneous Ring
- ✓ Call Forwarding
- ✓ Call Park
- ✓ Remote Office
- ✓ Group Paging
- ✓ Hoteling
- ✓ Hunt Group
- ✓ Visual Voicemail

### New Users

### Maintenance

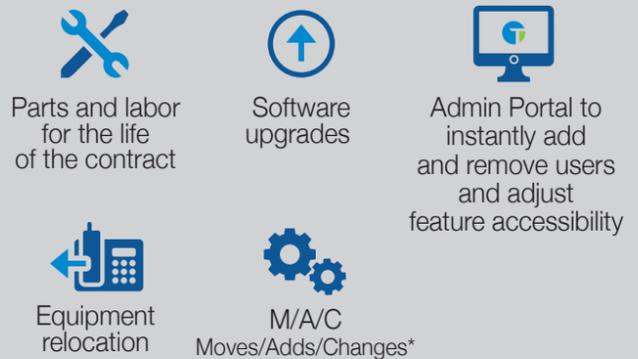

#### On-Premise PBX usually includes:

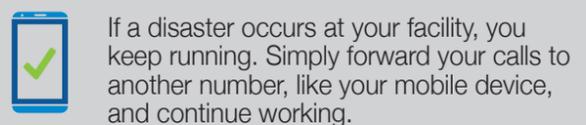

#### Does NOT include:

#### Telesystem's Hosted VoIP solution includes:

### Disaster Planning
