TARIFF FORMAT

Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time, new pages may be added to the price list. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.

Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Illinois Commission. For, example the 4th Revised Page 14 cancels the 3rd Revised Page 14.

Paragraph Numbering Sequence - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.a.
- 2.1.1.A.1.a.1.

Check Sheets - When a price list filing is made with the Illinois Commerce Commission, an updated check sheet accompanies the price list filing. The check sheet lists the pages contained in the price list, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The price list user should refer to the latest check sheet to find out if a particular page is the most current on file with the Illinois Commerce Commission.
