Phone Display

The phone's display is dynamic. The soft key options change to show relevant features. If available, the More soft key shows other available options.

Phone display while on a call (left)

Basic Call Handling

Placing a Call

Input the phone number or extension then press the key or **Dial** soft key. When dialing, be sure to include 1 before an external phone number.

End a Call

Press the key or **End Call** soft key.

Answer a Call

Press the key or **Answer** soft key.

Mute

Press the **Mute** button to turn mute on or off during a call.

Hold

Press the **Hold** soft key to place a call on hold. Press the **Resume** soft key to resume the held call.

Advanced Call Handling

Announced Transfer

Announced transfers allow you to talk to the third party privately before transferring the call to them.

- Press **Trnsfer** soft key
- Input the destination extension or phone number
- Wait for the third party to answer while the first party waits on hold.
 - To complete the transfer, press **Trnsfer**.
 - To cancel the transfer and go back to the first caller, press **Cancel** soft key.

Blind Transfer (Unannounced)

Blind transfers pass through the caller ID of the originating caller to the third party.

- Press **Trnsfer** soft key
- Press **Blind** soft key
- Input the destination extension or phone number
- Wait for call to complete or press **Send**

Transfer to Voicemail

Transfer a call directly to an extension's voicemail box.

- Press **More** soft key
- Press **SendVM** soft key
- Enter the extension and press **Enter**

Conference (Three Way) Call

After the first call is already on the line:

- Press or **Confnc** soft key
- Input the destination extension or phone number
- **Wait** for the third party to answer while the first party waits on hold.
 - To join the conference, press or **Confnc** soft key.
 - To cancel the conference and go back to the first caller, press **Cancel** soft key.

Hanging up a three way conference call transfers the other two parties to each other.

Park

Park is a shared hold. Calls may be parked upon and retrieved from any extension.

To park a call:

- Press **More** soft key
- Press **Park** soft key
- Enter the extension then press **Enter**

To pickup (retrieve) a parked call:

- Press **Pickup** soft key
- Enter the extension then press **Enter**
